

The Train Pt. 2 (sir Lucious Left Foot Saves The D

Big Boi

[Chorus]

We go through this everyday
Adding more to the story trying to make it more interesting
Lying to yourself like it really happened
It's like we're riding on a never ending train
Pick a stop (pick a stop), pick a lie (pick a lie)
Pick a reason to convince 'em that it never happened
I guess nobody cares when we're all laughing
I think we'll have to save the day

But not like Captain Save
More like black Captain Kirk, because Big Boi's from some other place
Oh way deep in outer space where the freaks are not afraid
To crank that bitch in the moonlight while nobody's getting paid
Galaxies of slaves, enter Dungeon Family
With Outkast, Goodie Mob, & P.A. now were Gnarly like Barkley
Without Harley Davidson, maybe someday you will see
Boy, we been done gave you some, the pipe has already been laid,
Foundation sturdy as ankle weights or shoes of cement
Be ready to sprout them wings or choose to cruise like a fish
We wish, but we need to pray, we don't stray away from this
Kids, common sense ain't common when your minds trapped in a fence
But mines that's intense, hence the way that I spit my shit
Cause I'm fire breathing (fire breathing) dragon in this bitch
Which is a girl dog, yet a pitfall
For me and y'all, songs found no bombs, but the ones rock
It's all wrong

[Chorus]

Look up, up and I pray
Channeling that heavenly energy, There's plenty we can say
But the enemy is winning because your punk ass be afraid
But I spray what's on my mind to educate and entertain
KRS, he said it best I learned from listening to these tapes
Before I-iTunes came out and made CDs obsolete
For Reality TV would seem to be that big mistake
And now Big Brother's got these cameras deep in each and every state
While each rapper claims to be the heavyweight

Cause he mentions cocaine in 'bout everything he make
And that why them people try to pin him with that case
Cause his blow his dixie crystal pistol play was just for play, fake
Just for play play but got them baybays
Believing that bullshit
Just for play play, but got them baybays
Fucked up!

[Chorus]

Plus I think I, I think I (He said, he said, he said)
Sometimes I think I love it (Sometimes I think I love it)
And I think it loves me too
Plus I think I, I think I {He said, he said, he said}
Sometimes I think I hate it (Sometimes I think I hate)
And I think it hates me too (And I think it hates me too)
I think it hates me too
(Just for play play, got them baybays
Just for play play, got them baybays)

Wooo!
