JYP Oh!
2PM Weâ€™re back!

Come here, come here
Let me move your body baby
Come here, come here
Let me move your body baby
Give it to me, give it, give it to me
Baby give it to me, give it, give it to me baby

Come here, come here
Let me move your body baby
Come here, come here
Let me move your body baby
Give it to me, give it, give it to me
Baby give it to me, give it, give it to me girl

Iâ€™m an energizer who doesnâ€™t know how to stop,
if you just put on some music I move without end
Hurry give me the chance
to make your whole body lose its exhaustion
My music is going into your body
and heart and making everything exciting

Now lets start,
lets start,
lets start now
one two three

(Let me touch) ya and give you electricity
(meet eyes) forget all your worries
I really want to see your expression change in front of me,
really want to see, really want to see

(Let me rock) ya and give you electricity
(Trust in me) From your head to your toes
Feel the shiver spread,
Do you feel it baby, do you feel it baby

Forget all the thoughts you had before you met me,
listen to my melody and my rhythym
Trust in me, whoâ€™s given medicine to pharmacists,
and feel your body changing little by little
Why are you still anxious
you donâ€™t need to think about anything

Now lets start,
lets start,
lets start now
one two three

(Let me touch) ya and give you electricity
(meet eyes) forget all your worries
I really want to see your expression change in front of me,
really want to see, really want to see

(Let me rock) ya and give you electricity
(Trust in me) From your head to your toes
Feel the shiver spread,
Do you feel it baby, do you feel it baby

Open your heart and let the music go into your soul
Iâ€™ll make it so you can forget everything
Come to me every time your head gets complicated
I can give you electricity, I can give you electricity

(Let me touch) ya and give you electricity
(meet eyes) forget all your worries
I really want to see your expression change in front of me,
really want to see, really want to see

(Let me rock) ya and give you electricity
(Trust in me) From your head to your toes
Feel the shiver spread,
Do you feel it baby, do you feel it baby

Come here, come here
Let me move your body baby
Come here, come here
Let me move your body baby

Give it to me, give it, give it to me
Baby give it to me, give it, give it to me baby

Come here, come here
Let me move your body baby
Come here, come here
Let me move your body baby
Give it to me, give it, give it to me
Baby give it to me, give it, give it to me girl
