Complicated

The U.S. Army Band Downrange

i don't know how else to keep it
so ima' keep it one hundred.
i didn't mean to get your hopes up
i was thinking thats what i wanted
kick-flipped the script on ya.
i bet ya never seen this one coming.
im changing up like autumn,
got you heated up like summer
[hook]i cant say im not impressed with you
[but im not ready to invest]i cant say im not the girl for you
[i just might not be her yet]feels like all this pressures on me right now
[like i don't have a choice]know this much--you can be sure that this
[aint about no other boys]Cuz if it was anyone, anyone, anyone, anyone - lord knows it would be you.
[lord knows it would be you]Before I see anyone, anyone, anyone, anyone - boy ima' come see you.
[something always brings me back to you]Its not love but its something like that
It aint love but its something like that
Its not love but its something like that
Boy its complicated...
[verse 2]now i can tell your disappointed
looking at me like we twisted
tryna figure out where my head at

everything i told you i meant it!
whatchu thinking that im feel real free now?
but im feeling something different.
you act like you don't understand boy, why don't you just listen?
[hook]i cant say im not impressed with you
[but im not ready to invest]i cant say im not the girl for you
[i just might not be her yet]feels like all this pressure is on me right now
[like i dont have a choice]know this much--you can be sure that this
[ain't about no other boys]Cuz if it was anyone, anyone, anyone, anyone - lord knows it would be you.
[lord knows it would be you]Before I see anyone, anyone, anyone, anyone - boy ima' come see you.
[something always brings me back to you][hook]i cant say im not impressed with you
[but im not ready to invest]i cant say im not the girl for you
[i just might not be her yet]feels like all this pressures on me right now
[like i don't have a choice]know this much--you can be sure that this
[aint about no other boys]Cuz if it was anyone, anyone, anyone, anyone - lord knows it would be you.
[lord knows it would be you]Before I see anyone, anyone, anyone, anyone - boy ima' come see you.
[something always brings me back to you]
