

Ashtray Red

Pushmonkey

Would you sew my mesenteric together
Wonder smoke inside of my pulmonary
Indigo to go with the fire inner
I can take a match to you
 Watcher try
and you take another hit
 Breath in tight
and you try a little bit
 all your life
for a light of bloody spit
 Wave good-bye
Killer, maker, roller, breaker
 Like a red in an ashtray
Lotta snake to calm down your ruby daughter
 In a sense, I'm after another blotter
Bloody mouth, a night for an albatross
 Catcher know to savor you
 Watcher try
and you take another hit
 Breath in tight
and you try a little bit
 All your life
for a light of bloody spit
 Wave good-bye
Killer, coper, maker, broker
 Like a red in an ashtray
Killer, holder, made her, broke her
 Like a red in an ashtray
