Hush Now

Holly Valance

YeaCome on
Boy we've been talking
'Bout this and that
I like it fine but
I love the strife
Here's my suggestion
Don't need no words
Get on your feet and if you see
Breathe deep and follow meI wanna see you working what you got
'Cos that's how I like it
That's how I wanna last it on and on
Are you ready or not?Touch down
Zip it
Don't stop moving your body on the dance floor
Flip it
Rock that so phat
You're shaking on the dance floor
Now dip it
Feel your base bass
You move across the dance floor
Zip it
'Cos that ain't what you came here forSo no talk but baby
Don't take offense
'Cos we're on the same vibe
Boy when we dance
Your body language
No need for words
You'll do me good
And it's understood
I feel your needI wanna see you working what you got
'Cos that's how I like it
That's how I wanna last it on and on
Are you ready or not?Touch down
Zip it
Don't stop moving your body on the dance floor
Flip it
Rock that so phat
You're shaking on the dance floor
Now dip it

Feel your base bass
You move across the dance floor
Zip it
'Cos that ain't what you came here forTouch down
Zip it
Don't stop moving your body on the dance floor
Flip it
Rock that so phat
You're shaking on the dance floor
Now dip it
Feel your base bass
You move across the dance floor
Zip it
'Cos that ain't what you came here forTouch down
Zip it
Flip it
Rock it
Let me hit it
On the dance floor
Hush now
Zip it
Flip it
Rock it
Let me hit it
On the dance floorWhoa
I wanna see you working what you got
'Cos that's how I like it
That's how I wanna last it on and on
Are you ready or not?Touch down

Don't stop moving your body on the dance floor
Flip it
Rock that so phat
You're shaking on the dance floor
Now dip it
Feel your base bass
You move across the dance floor
Zip it
'Cos that ain't what you came here forTouch down
Zip it
Don't stop moving your body on the dance floor
