

Show

Live

This love has taken a turn
My maps are no good now
I'm lost in these woods
I say, Black Mountain, show me your face
Bring on the oblivion of your sweet embrace
I say, this love has taken a turn
Where we go now
I can't wait to learn
Show a little love to me
Show a little love to me
Darlin', I'll show you free
I'll show you free tonight
Show a little love to me
Show a little love to me
Darlin', I'll show you free
You are my diamond of grace
Angelic little devil of the most secret space
I say, there ain't no one quite like you, girl
You save your nectar for the wise
While you smile at the world
I say, you make me laugh at myself
You take me straight to heaven
By going straight through hell
Show a little love to me
Show a little love to me
Darlin', I'll show you free
I'll show you free tonight
Show a little love to me
Show a little love to me
Darlin', I'll show you free
I'll show you free tonight
Show a little love to me
Show a little love to me
Darlin', I'll show you free
Free, yeah, oh
If you want to walk with me
Then leave that false innocence behind
If you want to know me tonight
Then drag me to the river and hold me tight
If you want to love like a God
You got to bleed like a God
You got to fight like a God
Let go of who you are
Cling to me now
Cling to me now
Here we go
Here we go, yeah
Show a little love to me
Show a little love to me
Darlin', I'll show you free
I'll show you free tonight
Show a little love to me

Show a little love to me
Darlin', I'll show you free
I'll show you free tonight Show a little love to me
Show a little love to me
Darlin', I'll show you free
Yeah, I'll show you free Show a little love to me
Show a little love
Show a little love to me
