Sound Off

Tyketto

Money changes hands, money changes minds
Money takes command, Makes and breaks our lives
You can buy the world, Sell it for a song
Money makes the world go wrong(Sound off!) At those cavaliers who sold us all them bitches through
(Sound off!) At the financiers who took it all and bonuses too
(Sound off!) We're not gonna let you beat the check for this one too
(Sound off!) Sound Off!Music touches hearts, Music changes lives
Music gives us strength, the power to survive
Money gets involved where it does not belong
Money makes it all go wrong(Sound off!) At your radio, I don't wanna swallow what you're feeding me
(Sound off!) At those TV shows, formulated and talent-free
(Sound off!) What's it gonna be? We get the crap we're paying for
(Sound off!) Unless we sound off!(Give another listen) to one more sorry, whining little girl
(Give another listen) to one more lame-ass gangster shooting up the world
(Give another listen) Is it any wonder that I'm preaching for the blind?
(Give another listen) Pulling out the rug! I will do anything to turn that sound off(This how to really play!)
Money makes it all go wrong(Sound off!) At those glory hounds, wannabe iconoclasts
(Sound off!) When their voices sound, auto-tuned to make their 15 minutes last
(Sound off!) Put them in the past, take control and turn the sound off
(Sound off!) Sound Off!(Sound off!) Like you got a pair, we're not gonna swallow what you're handing out
(Sound off!) At those billionaires, never gonna get it unless we kick and shout
(Sound off!) What's it all about? Flip the switch and turn that sound off!
