

# Slow Down

Brooke Hogan

Baby boy why you walking away  
Don't act like you can't talk to me  
Pump the brakes it's a red light  
Wanna know what you're doin tonight (yeah)  
Don't let the sweettalk throw you off  
Don't get it wrong, yeah, I'm the boss  
I don't know what you heard  
I'm better than the rest now boy that's my word  
(Chorus)

Baby you're so beautiful  
All I wanna know is can I talk to you tonight  
Slow down boy, and talk to me  
Sexy you're so beautiful  
Baby come on over here I'll make you feel alright  
Slow down boy  
Tell me boy how you do this to me  
One look at you I can't breathe, no  
Hypnotized by your style

I can't believe how quickly I fell, oh  
And by the way that you're slowin down  
I bet you like the way that sounds  
Come on baby let's go  
I can't let you leave without me, no no  
((Chorus))  
((Chorus))

Why you look so surprised  
Boy everything I'm saying,  
Every word that you heard is true  
And this chemistry between us  
Baby it's so serious  
And if I got what you want  
You got what I need  
It's going down like yeah  
((Chorus))  
((Chorus))
