

# Three Certifications

## The Bar and Grill Singers

Three certifications: family, Consumer and PI  
Now when I'm in a courtroom  
I know that I'm the smartest guy  
Three certifications, they can't help but ask me why  
When I show them my income, they'll all want to  
certify

If you think that you're the best  
File the form and take the test  
Board certification, you be the next one to apply  
Forms are due every April, start them the previous  
July  
You should try! Come apply! Certify!

We just love to see it spread all across or letterhead  
Three certifications, means we're special to you all  
I just might get another to fill that bare spot on my  
wall  
You should try! Come apply! Certify!
