

# Never

## Abandoned Pools

Well we never made it through another day  
And it's all because you had to have it your way So lucky you  
I wonderin' when I'll be OK  
If it's never than it's never Well your mind is there but your heart is out to lunch  
And it's all because your philosophy's just a hunch T.V. time's over  
Father's order
