

# Water

## Bush

I will always be yours  
You stole my heart some time ago  
When the madness saw this winter  
We wait for spring to grow Till the blossom blows  
Till the blossom blows  
Till the blossom blows Got to be like water  
Got to be like rain  
Got to be myself again  
No matter what you say You will always be mine  
Together or apart  
Now I'm dead forever  
Nothing kills like covered hearts Till the blossom blows  
Till the blossom blows  
Till the blossom blows Got to be like water  
Got to be like rain  
Got to be myself again  
No matter what you say  
Got to be like water  
Got to be like rain  
Got to be myself again  
I'm in an inner space Breathe life into dead things  
Breathe life into beauty, yeah Got to be like water  
Got to be like rain  
Got to be myself again  
No matter what you say When you can't see your enemies  
When you all can't see  
When you can't see your enemies Got to be like water  
Got to be like water  
Got to be like water  
Got to be like
