Fly

Mattia Cupelli

Take my hand there will be nothing to fear
If you take my hand we can fly
Take my heart away from this winter land
If you take me now we can fly

I won't let you fall this time
No mountain is to high to climb
The stars in your eyes they fill the skys
And all we can do is try

I won't let you fall this time
No mountain is to high for us to climb
The stars in your eyes they fill the skys
And all we can do is try

Take my hand and there will be nothing to fear
If you take my hand we can fly
Take my heart away from this winter land
You can take me now we can fly

Fly
Fly

Take my hand and there will be nothing to fear
If you take my hand we can fly
We can fly
We can fly
