

Over the rainbow

Headstone Epitaph

[The meaning is close to 'The Game': help yourself.]When you're in trouble

And when you feel pain

You hear it over

And over again

That demon inside you

He tries to persuade

It's such a tragedy

When it's too lateOver the rainbow

Far beyond the clouds

There's always something

But you can't reach outIt's sometimes hard for you

To overcome

You feel so much better

After it's done

Don't be so lazy

And don't be a fool

You are so stubborn,

As stubborn as a muleOver the rainbow

Far beyond the clouds

There's always something

But you can't reach out

Follow the fire,

Hold on to your dreams

And with desire

You will find the meansOver the rainbow

Far beyond the clouds

There's always something

But you can't reach out

Follow the fire,

Hold on to your dreams

And with desire

You will find the means
