

Sexuality

Erasure

Come up to my room
Come up to my roomDo it any way you like it
Give it everything you've got
Shake it, move your body
Love it if you like it or notSexuality
SensualityCome up to my room
Let's not pretend
You're shy about it
SexualityCome up to my room
Let's make amends
Can't do without it
SensualityLose it
One step in the right direction
Use it
In every possible waySexuality
SensualityCome up to my room
Let's not pretend
You're shy about it
SexualityCome up to my room
Let's make amends
Can't do without it
SensualityStrip it
We got obvious intentions
Show it
Let's tell the world about itPlay it
We got no rules or regulations
Do itSexuality
SensualityCome up to my room
Let's not pretend
You're shy about it
SexualityCome up to my room
Let's make amends
Can't do without it
SensualityCome up to my room
Let's not pretend
You're shy about it
SexualityCome up to my room
Let's make amends
Can't do without it
