

Viva La Fiesta

S Club 7

Oh viva la fiesta
Dancin' in the moonlight
Until the break of day
Just let the rhythm take control
Can you feel the spirit
I know you can hear it
There's a fever in your soul Take a chance
Come on and dance, dance, dance
We're gonna salsa, yeah
We're getting down tonight
Everybody come and join the party
Where the music never stops Don't wait up
I just want to party forever
Never stop
Everybody's dancing together
Don't wait up
I just want to party forever
Never stop
Viva la fiesta Oh viva la fiesta
Oh (Dance, dance, dance all night)
Viva la fiesta When you get that feeling
You're dancing on the ceiling
Let the rhythm take control
Everybody's staying
The music keeps on playing
There's a fever in your soul Take a chance
Come on and dance, dance, dance
We're gonna salsa, yeah
We're getting down tonight
Everybody come and join the party
Where the music never stops Don't wait up
I just want to party forever
Never stop
Everybody's dancing together
Don't wait up
I just want to party forever
Never stop
Viva la fiesta Oh viva la fiesta
Oh viva la fiesta Don't wait up

I just want to party forever
Never stop
Everybody's dancing together
Don't wait up
I just want to party forever
Never stop
Viva la fiestaDon't wait up
I just want to party forever
Never stop
Everybody's dancing together
Don't wait up
I just want to party forever
Never stop
Viva la fiestaDon't wait up
Never stop
Viva la fiesta
