My Baby

Kaci Brown

Lights are turn down, way down low
Get on the floor, now here we go
Move a little closer, rock my body
Feelin' kinda hot but don't get naughty
My baby, turn me on, my baby, turn me on
Give me what I want, want what I want
You know what I want, I want it baby
Give me what I want, want what I want
You know what I want, dance with me baby
My baby, turn me on
Crank the noise up, way up high
I could dance to this all night
Don't stop baby, don't you leave

'Cause I can feel you feelin' me
My baby, turn me on, my baby, turn me on
Give me what I want, want what I want
You know what I want, I want it baby
Give me what I want, want what I want
You know what I want, dance with me baby
My baby, turn me on
My baby, turn me on, my baby, turn me on
Give me what I want, want what I want
You know what I want, I want it baby
Give me what I want, want what I want
You know what I want, dance with me baby
