

# Trains

[Ryan Adams](#)

Trains moan in my sleep when I'm tryin' to go to bed  
Movin' way to slow for whatever that they be carryin'  
I've been workin' hard ever since I was a kid  
Trains moan in my sleep  
Seems like something is always movin'  
Trains moan in my sleep when I'm tryin' to go to bed  
Movin' way to slow for whatever that they be carryin'  
I've been working hard ever since I was a kid  
Trains moan in my sleep  
Seems like something is always movin'  
You know, I don't always show, what is it I'm feelin', baby doll?  
You know that the things that you want  
Are that the things that you need and the things I got believe  
I'm gainin' on them trains and fast  
Trains moan in my sleep  
Into the future and out of the past  
Into the future and out of the past  
Trains moan in my head when I'm tryin' to go to sleep  
Throwin' rocks at the window when the sun's crawlin' up the sheets  
I've been workin' hard, ever since I was a boy  
Trains moan in my sleep  
Gnawin' on me like I was a chew toy  
You know I don't always show whatever I'm feelin', baby doll  
You know that the things that you love and the things that you want  
Are the things that you need [Incomprehensible]  
I'm gainin' on them trains and fast  
Trains moan in my sleep  
Into the future and out of the past  
Into the future and out of the past  
Into the future and out of the past  
Into the future and out of the past  
Trains moan in my head when I'm tryin' to go to sleep  
Movin' way to slow for whatever that they're carryin'  
I've been workin' hard, ever since I was a kid  
Trains moan in my sleep  
Seems like, I'm always movin'  
Trains moan in my sleep  
Seems like, I'm always movin'
