Body Language

Isaac Hayes

Hey sexy, my lovely lady
No one can make me feel as good as you do
Your action produces satisfaction
You let me know what you're feeling by the way that you moveA lot of sweet talk is second handed
'Cause the language that you speak, I can understand it
You're speaking body language, so sexual and so sweet
Body language, it feels so good to meIt's an intimate form of communication used all over the world
The language between a man and a women, and a boy and girl
It needs no translation, it needs no edificationThere's a whole lot of freedom of speech in your walk
And the swaying of your hips, it really talks
You're talkin' body language, you're speaking when we're making love
It's your body language, you're speaking when we're making loveBody language, when we're walkin' through the park, yeah
Day time and after dark, we're dancing on the floor
Especially behind closed doors
Hey mama, if you wanna know, I'm ready
I really got the message clear and strong, yeahNow it's no lie, the look in your eyes
Here's an instant turn on
And when we're hooked together by the chains of desire
It's total communication, nothing to put up a fight'Cause we're speaking body language
Speak with me, I wanna make love to you
Body language, speaking while we're making loveBody language
(So, so sure, and so sweet)
Body language
(Feels so good to me)Body language
(So clear and strong, yeah)
Body language
(It's an instant turn on)Body language
(While we're dancing on the floor)
Body language
(Specially behind closed doors)Body language
(Uh, way you walk, you're speaking)
Body language
(I love the way your body talks)Body language
(Used all over the world, yeah)
Body language
(Man, women, boy and girl, yeah)Body language
(I love you, I love you)
Body language

(I love to hear and speak to you)
