

# White Sun

## The Ivytree

Horizon of blue, hills are rollin'  
Walkin' with you through a field of red stones  
I been confused from voices callin', callin' to me  
Where the white sun has shown And I slip away down by the water  
And I slip away down by the sea  
Take love and give love  
It's got to be free The old man is weak but strength comes from him  
A smile full of youth and a gleam in his eye  
His garden is green and seems overflowin'  
And his dreams await in his rockin' chair sky And I slip away down by the water  
And I slip away down by the sea  
Take love and give love  
It's got to be free
