

# I Have Everything

Meredith Brooks

The list has been long full of complaints full of desires full of things  
That keep me amused I don't even want  
Some say I got lucky  
She poured down on me  
When I didn't have a place to sleep  
But you said it was fine that way  
All I need is this bed

And this guitar what more, what more? I have everything, I have everything  
I have everything but you I hang around the place you do laundry  
And I don't even wash a thing  
You say that it's cool we're such good friends  
I already know plenty of those friends  
But not the kind I want to kiss I have everything, I have everything  
I have everything but you  
I have everything Maybe it's simple  
But what else is there but love?  
You can have all the money in the world  
But it doesn't matter if I climb another dome alone  
I'd rather be back home  
Thinking of things to do with you and me  
Just me and you I have everything, I have everything  
I have everything, I have every little, every little thing  
I have everything but you
