

I'm Ultracet

Echo Orbiter

Hold back the booze
It's the least that you can do
To salvage tonight
Run your tongue across the knife
Ready, steady
Shoot across the interstate
To salvage tonight
Left behind a mundane life
Now!

I don't wanna hear this ever again
I don't wanna see this ever again
I don't wanna know this ever again
I'm ready to go now, I'm ultracet tonight

Save your time
For New York City
To salvage tonight
Speed towards the smoky lights
Save your words for San Francisco
To salvage tonight
Left behind a mundane life
Now!

I don't wanna hear this ever again
I don't wanna see this ever again
I don't wanna know this ever again
I'm ready to go now, I'm ultracet tonight
