Keep It Together (so I Can Fall Apart)

Ben Harper

I'm not sure what worries me more
The fact that I'm talking to a wall
Or that the wall keeps answering me
Saying that I've heard it all before
Never underestimate how complicated
A simple life can be

You've gotta keep it together
You've gotta keep it together
You've gotta keep it together so I can fall apart

I know you've grown tired of trying to feed me
And I know by now my reputation precedes me
I know you've grown tired of trying to fix me
And I know by now my best years,
They are no longer no longer with me

Keep it together
You've gotta keep it together
You've gotta keep it together
You've gotta keep it together so so I can fall apart
You've gotta keep it together, you've gotta keep it together so I can fall apart
You've gotta keep it together, please keep it together
So that I can fall apart

You've gotta keep it together
Please keep it together
You've gotta keep it
So I can fall apart
So I can fall apart
Fall apart, fall apart

You've gotta keep it together
You've gotta keep it together
Keep it together
You've gotta keep it
Oh you've gotta keep it
Please keep it together
I need you to keep it together
So I can fall apart

So I can fall, fall apart
Fall fall
Keep it together
Please please keep it together
I need you, I need you
I'm asking you, I'm asking you
To keep it toghether
Something I can
Something I can fall
Fall, so I can fall apart (yeah)
