

Hollow and Untrue

Spoken

You come walking in, everything begins to change
You think I should know your name
Where do I begin?
You're the one that took their lives
You're the reason we are forced to fight
For our lives
You will never take our life
We will never live your lie
We'll fight to survive
We will not believe your lie You are the reason the world is falling apart
I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue
(Is this the best that you can do?)
I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue I've seen you before
We were face to face
But you didn't have a word to say
You are not the end
You're nothing but a shadow
A shadow of the past I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue
(Is this the best that you can do?)
I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue
(Is this the best that you can do?) You will never be a part of me
I will never choose to be like you
You will never speak a word that's true
I am alive
I'll never be like you I'll never be like you I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue
(Is this the best that you can do?)
I've seen, I've seen the worst of you
Your threats are nothing more than hollow and untrue
(Is this the best that you can do?)
