

# Frozen in Time

[Adam Green](#)

Frozin in time forever  
Carrying that torch for so long  
Can you hear my heart believing  
Frozen in the index of timeThey singled out my tongue  
In front of everyone  
Who was watching my show  
They say that I'm no goodI'm sorry that I could  
Be that way to you  
Dusting off the roman dollar  
Searching for some work on the sideI'm just closer to death then ever  
Frozen in the index of time  
They just don't have the minds  
To pay me for my crimesThat they made me do  
They don't care how it feels  
To them this isn't real  
In my magical wombFrozin in time forever  
Carrying that torch for so long  
Can you hear my heart believing  
Frozen in the index of timeBaby
