Soap (I Use The)

David Gates

I use the soap to wash the dirt of my face
I write with pencil so that I can erase
But what's to do when someone's taken my place with you, with youI know to stop when the light turns to red
And when it rains I know to cover my head
But what's to do when I wish'd I were dead over you, 'ver you, over youDo do do do do etc
Plannin' to write off tomorrow
Do do do do do etc
Hopin' to wash off the sorrowI woke to find that my world was not there
It ceased to me when I found you did not care
And my ambition vanished into thin air along with you, with you
