:Wumpscut:

Take it away now
....
See yourself in the mirror
From a city in the dark
There's a place
Where lovers lay down
There's a place
Where lovers die
See the world
....
God's not kind
God's not grace
God's not faith
God's blood liesYou take the tears
And you take a life
And you taste so sweet
And it's new life x2
....
....
And you fall asleep
as it fades away
And there's no other feeling
And no other dream
To take his place x2
Beyond angels
Beyond space
Beyond tears
Beyond lies[la morte]
