

# Slender Frame (NRK Live)

[a-ha](#)

Your coat is hanging loosely  
On your slender frame  
There's many roads to lave by  
But few come back again I don't believe it  
I believe it Take a look around and see  
What's stopping you is stopping me  
One moonless night and we'll make it right  
And vanish in the dark of night Pack up your things and go  
Run down the road, don't take it slow  
Pack up your things today and run away  
Yeah, run away You say it's useless crying  
Never got you far  
You claim there's none as lonely  
Lonely as you are I don't believe it  
I believe it Take a look around and see  
What's breaking you is breaking me  
One moonless night we'll make it right  
And vanish in the dark of night Pack up your things and go  
Run down the road, they'll never know  
Pack up your things today and run away  
Yeah, run away One moonless night  
Will vanish in the dark of night Pack up your things and go  
Run down the road, don't take it slow  
Pack up your things today and run away Pack up your things and go  
Run down the road, don't take is slow  
Pack up your things today and run away  
Yeah, run away Run away  
Run away
