

Crash and Burn

The Bangles

Advisory - the following lyrics contain explicit language:

L.A. to Reno
Checking out the scene-o
Feeling so mean-o
Sometimes I wish I could crash and burn Winding through the hot night
Without my headlights
Twenty twenty hindsight
Sometimes I wish I could crash and burn Crash and burn
And I never ever felt so lonely
Crash and burn
Can't look them in the eye
Just want to drive and drive and drive Going nowhere
And I don't care
Can't wait 'til I get there
Sometimes I wish I could crash and burn Fifty, sixty, seventy, eighty, ninety
Gotta be a place where they can't find me
Watching all those bridges burn behind me And if I can't see
What's passing me
Nothing's gonna touch me and I'll fly
I wish I could crash and burn Crash and burn
And I never ever felt so lonely
Crash and burn
Can't look them in the eye
Just want to drive and drive and drive On my Philco I hear an echo
There was a wreck-o yesterday
And by tomorrow
They'll sweep the char-o
And wash the tar and trouble away I wish I would
I wish I would
I wish I could
