

# Light the Night

## House Rockerz

Light the NightLife is a mess it seems  
I am so out of touch with things  
Id like to break the way  
But therefore i needed wingsLife is a mess it seems  
I tried to leave the past behind  
It is so hard on me  
Cuz you are undermine  
And now i know that i have waited for a spark  
So i let go, and keep on sinking in the darkLight the night, turn my world into black and white  
Be my guide, Light the nightLight the night, turn my world into black and white  
Turn the Time, Light the night
