On Three

Brandtson

they say what doesn't kill you only makes you stronger,
you know, stronger?
and we're all given something inside drives us,
thats inside us for the rest of our lives
jump, jump in with both feet forward dont give in to all those voices
that are telling you about your past failures,
killing yourself before you've had your chance to live
are you listening?
your chance to live is right before you
so put it down on paper
sing it out loud
lock yourself in you room, and come out as beautfiul as you are
jump, jump in with both feet forward dont give in to all those voices
that are telling you about your past failures,
killing yourself before you've had your chance to live
they're whispering,
and you cannot win, as long as you are listening
