

# Way Back

## Souleye

Wait I know you friend /  
We go way back /  
Imagine a place that /  
Allows you to be that /  
All you wanna be come on and  
March to it now /  
March to it now /

There's a power in your voice /

How you been dear diary /  
You've warped my mind entirely  
A Tiger runs free /  
No noose will hold me /  
No muzzle will muzzle me /  
Build it up only to sit back and watch it fall /

March to it now /  
March to it now /
