

Home in Your Heart

Otis Redding

Don't you know I got to find me a home
Right now in your heart I'll travel over miles and down the highways, babe
Through the valleys every byway
Just to find me a home right now in your heart I'll bring you to the music, refueling
Everything you want to
Everything you need babe
Just to have me a home right now in your heart Baby I'll travel for you over miles and
Through the valley babe
Down all the highways
Through the valleys honey
Just to find me a home right now in your heart
