## Esmée Denters

It's 11 o'clock and the last time that we talked  
He said he's busy and he'd call me but he never called me back (no)  
And now I feel like somethings going on  
But I feel crazy every time I bring it up so I don't  
He told me there's no one above me  
And all my friends are telling me different and something seems funny

Tell me do you know what's the point of being in love, love, love  
I can still hear voices in my head like

[Justin Timberlake]  
I'm tryna tell you little sister  
He's running around on ya  
Like some Casanova lover  
At the expense of your heart  
You need to listen to your big brother  
I'm just tryna look out for ya  
You need to find another  
Coz he's playing a part

[Esmée Denters]  
Why didn't I see it from the start  
How was I to know  
It would bruise my heart  
So fast it had me blind-sighted I couldn't see  
Like a wave you took me under now it's so hard to breath

[Esmée Denters (Justin Timberlake)]  
And I guess I'm just too young to play with love (hey)  
Guess I'm just too young to play with love (sometimes it has to be this way)  
I guess I'm just too good to play with love (hey)  
I guess I'm just too young to play with love (sometimes you never know hey)

I shoulda never given into his games  
Shoulda only been the type that treat me the same  
And it ain't fair coz I gave him all I had now there's nothing left  
(these tears wil dry and you'll move on, on and on and on)  
This songs the same thing  
Cant keep fallin'

No more heartbreak

Tell me do you know what's the point of being in love, love, love  
Coz I still hear everybody's voice like

[Justin Timberlake]

I'm tryna tell u little sister  
He's running around on you  
Like some Casanova lover  
At the expense of your heart  
You need to listen to your big brother  
I'm just tryna look out for ya

[Esmee Denters]

Why didn't I see it from the start  
How was I to know

So fast it had me blind-sighted I couldn't see

[Esmee Denters (Justin Timberlake)]

I guess I'm just too young to play with love (hey)  
Guess I'm just too young to play with love (sometimes it has to be this way)  
I guess I'm just too good to play with love (hey)  
I guess I'm just too young to play with love (sometimes you never know, hey)

I guess I'm just too young to play with love (hey)  
Guess I'm just too young to play with love (sometimes it has to be this way)  
I guess I'm just too good to play with love (hey)  
I guess I'm just too young to play with love (sometimes you never know, hey)

And so I cry cry cry  
Ask myself why why why  
And that I cry cry cry  
So why should I try try try

And so I cry cry cry (hey)  
Ask myself why why why (sometimes it has to be this way)  
And that I cry cry cry (hey)  
So why should I try try try

And I guess I'm just too young to play with love (hey)  
Guess I'm just too young to play with love (sometimes it has to be this way)  
I guess I'm just too good to play with love (hey)

I guess I'm just too young to play with love (sometimes you never know, hey)

I guess I'm just too young to play with love (hey)

Guess I'm just too young to play with love (sometimes it has to be this way)

I guess I'm just too good to play with love (hey)

I guess I'm just too young to play with love (sometimes you never know, hey)
