

# Stay With You

[John Legend](#)

We've been together for a while now we're growing stronger everyday now  
It feels so good and there is no doubt I will stay with you  
As each morning brings the sunrise and the flowers bloom in springtime  
On my lovin' you can rely and I'll stay with you Oh I will stay with you through the ups and the downs  
Oh I will stay with you when no one else is around  
When the dark clouds arrive I will stay by your side  
I know we'll be alright I will stay with you Oooo, oooo Though relationships can get old have a tendency to grow  
cold  
We have something like miracle yeah, and I'll stay with you Oh I will stay with you through the ups and the  
downs  
I will stay with you when no one else is around  
When the dark clouds arrive I will stay by your side  
I know we'll be alright I will stay with you There will be heartaches and pains  
Yes, but through it all, we will remain, hey  
In this life, we all know friends may come, and they may go  
Through the years I know I will stay  
In the end I know that we'll find love so beautiful and divine  
We'll be lovers for lifetime, yeah and I'll stay with you Oh I will stay with you through the ups and the downs  
Oh I'll stay with you when no one else is around  
And when the dark clouds arrive I will stay by your side  
I know we'll be alright I will stay with you  
Yeahh everything will be fine yeah and I will stay with you  
Through the end of time I will stay with you
