

# Not Sick

## Tokyo Police Club

Get comfortable, get unfrustrated  
Get healthy, and all the things that you want I do, I do, I do not  
Fuck with the sure shot  
Not serious, about the way that you are Carolina, happy belated  
Always golden, still the greatest Not sensible, I wanna marry a dancer  
Vegetarian, can't stand to be wrong I do, I do, I do not  
Fuck with the sure shot  
Not serious or taken seriously Oh Carolina, happy belated  
Always golden, still the greatest 'cause it's there on the tip of your tongue,  
On the back of your hand,  
In the place that you had it last,  
You need to be careful All in a single night,  
In a single dose,  
Is the best of the best for me,  
So what do you need, what do you need, what do you need? Is it a call for an emergency?  
So what is it like  
For your song on karaoke night? Oh Carolina, happy belated  
Always golden, still the greatest
