

Diamonds In The Sky

Husky Rescue

The mist of my swings
Swaying my rose white strings
I'm hacking the wind with my wings
I'm closing my eyes
I'm flying to restless nights
The angels they smiled on my flight I'm safe in my dreams
I'm casting my favorite sins
I want to believe this is real
The shining, the night
With diamonds in the sky
The sweet dream in girl's paradise There's no way to sing
Playing my tambourine
Feeling the pinch on my skin
I'm closer to sky
The diamonds are flying high
Demons require my breath The shining, the night
With diamonds in the sky
The sweet dream in girl's paradise
The shining, the night
With diamonds in the sky
The sweet dream in girl's paradise
