Feeling

Chelou

I take it in the evening
I take it when I wake up
Is that feeling you always want one more time
I need my medication
I need it or the shit will hit the fan
Is that feeling, I know you understand what I am
So unproductive when you're around
Is that feeling I cannot stand to be without
And I like it on the weekend
I like it when I feel a little rough
Is that feeling that gives your body such a rush
But I wanna make it special
I wanna give you everything you need
Cause is that feeling that keeps you week at the knee

But when you taste that good I can't help but want it everyday
Cause when it's just the two of us there is no place I'd rather be
Wouln't you give me that feeling?
Sugar cold, my honey gold
Giving me that feeling
And its the best I've ever known

I wanna know your secret
I wanna know what's really underneath
Is that feeling bliss and heat beneath the sheet
And I want to do a matching
I want you to stop feeling insecure
Is that feeling that lets you know you're so much more
But when it tastes that good I can't help but want it everyday
Cause when it's just the two of us there is no place I'd rather be
Wouldn't you give me that feeling?
Sugar cold my honey gold
Giving me that feeling oh
And its the best I've ever known
She giving me that feeling
Sugar cold, my honey gold
Giving me that feeling
And its the best I've ever known
Giving me that feeling

And its the best I've ever known
