Needle And Spoon

Savoy Brown

To some I'm a wise man, to some I'm a fool
But I need a little something to keep my coolI sleep with the sun then I rise with the moon
But I feel alright with my needle and spoon
I feel alright with my needle and spoonIt's difficult sometimes to get my stuff
So if I'm evil, don't get in a huffI sleep with the sun then I rise with the moon
But I feel alright with my needle and spoon
I feel alright with my needle and spoonDon't need no women, don't need no wine
'Cause life is sweet when you hit the main lineI sleep with the sun then I rise with the moon
But I feel alright with my needle and spoon
I feel alright with my needle and spoonOnly one thing that worries my mind
The stuff it kills you and it treats you unkindIf you're married, you can divorce your wife
But when you're married to H then you're married for life
You're married to H then you're married for life
