

# Go Go

## Oval Emotion

Jay and James roll  
Tape I'm ready to  
Here I am, it's Friday night  
I'm feeling good, the time is right  
There you come, right out the crowd  
And all that I can say is  
I want you to know that I can rock you girl so  
Come on let's go, I want you to see  
I'm really feelin' you so if you're feelin' me  
I want you to know that I can rock you baby  
With the lights down low, I want you to see  
I'm really feelin' you so, if you're feelin' me, go go  
So you think you got it all together before you make a move  
And get too deep  
Don't you know that I can, love her better?  
So give it up, go home and get some sleep  
I want you to know that I can rock you girl so  
Come on let's go, I want you to see  
I'm really feelin' you so if you're feelin' me  
I want you to know that I can rock you baby  
With the lights down low, I want you to see  
I'm really feelin' you so, if you're feelin' me, go go  
I must have been mistaken for another  
You over looked the fact that I'm your  
Older brother, don't you know the girl, she wants me  
So look in the other direction and go and get some  
I want you to know that I can rock you girl so  
Come on let's go, I want you to see  
I'm really feelin' you so if you're feelin' me  
I want you to know that I can rock you baby  
With the lights down low, I want you to see  
I'm really feelin' you so, if you're feelin' me, go go, go go
