

# We Fly So Close

Phil Collins

My harbor lights are fading fast  
Soon they'll disappear  
Alone I sit in darkness  
Hoping someone might come near  
Though I wait, though I try no one ever comes  
And the feeling that I have flood over me  
The river starts to run  
We fly so close  
We fly so close  
Sometimes we fly too close  
Every place you run to, everywhere you turn  
There are places that you know you should not go  
But some bridges just won't burn  
All my life, though I try, I cannot change the past  
And the ghosts that come back to haunt you  
Make you realize at last  
Did we fly so close  
We fly so close

Sometimes we fly too close  
We fly too close  
My heart is racing much faster now  
Life passes before my eyes  
Somethings I see, they make me smile  
Somethings they make me cry  
So I look, so I try to find a lesson I can learn  
The passing of time hasn't changed my mind  
And the ghosts I know return  
You know we fly so close  
Do we fly so close  
Sometimes we fly too close  
We fly too close  
Oh, we fly so close  
You and I sometimes, sometimes we fly so close  
We'll never know how many times  
Oh, we fly so close  
We fly so close
