

We Fly So Close

Phil Collins

My harbor lights are fading fast
Soon they'll disappear
Alone I sit in darkness
Hoping someone might come near
Though I wait, though I try no one ever comes
And the feeling that I have flood over me
The river starts to run
We fly so close
We fly so close
Sometimes we fly too close
Every place you run to, everywhere you turn
There are places that you know you should not go
But some bridges just won't burn
All my life, though I try, I cannot change the past
And the ghosts that come back to haunt you
Make you realize at last
Did we fly so close
We fly so close

Sometimes we fly too close
We fly too close
My heart is racing much faster now
Life passes before my eyes
Somethings I see, they make me smile
Somethings they make me cry
So I look, so I try to find a lesson I can learn
The passing of time hasn't changed my mind
And the ghosts I know return
You know we fly so close
Do we fly so close
Sometimes we fly too close
We fly too close
Oh, we fly so close
You and I sometimes, sometimes we fly so close
We'll never know how many times
Oh, we fly so close
We fly so close
