

# Keep the Love

Amanda Fondell

I can see the storm passing right by  
Can you feel the earth moving  
Better get the winds turning

I can't  
Hold back  
The rain  
The rain  
And we're in  
This mess  
Together

I can feel the love  
The love coming  
Keep the love, the love coming  
We keep the love  
The love coming  
Keep the love, the love coming

I can see your lips moving  
I can feel your heart raging right now  
when you think the sky's falling  
I can get it back but I

I can't  
Hold back  
The rain  
The rain  
Let's ride out  
This mess  
Together

I can feel the love  
The love coming  
Keep the love, the love coming  
We keep the love  
The love coming  
Keep the love, the love coming

And we can't let go

Can't hold back the rain  
Although we're lost  
We keep, keep the love, the love

Can you feel the earth moving  
Better get the winds turning right now

I can feel the love  
The love coming  
Keep the love, the love coming  
We keep the love  
The love coming  
Keep the love, the love coming

And we can't let go  
Can't hold back the rain  
Although we're lost  
We keep, keep the love, the love

We keep the love  
Keep the love  
The love coming  
We keep the love  
Keep the love  
The love coming  
We keep the love
