

Feels Like Fire

Small Mercies

She says there so much of love
That is left to be learned
Mislead, push comes to shove
When you feel the love returned Feels like fire
Feels like fire
This desire
Feels like fire So alone, you speak to yourself
But still you hear lies
On your own, I know how it felt
'Cause it burns in your eyes Feels like fire
Feels like fire
This desire
Feels like fire
Feels like fire [Yea, hey yeah...] Hold on, a love that awaits you
She was there by your side
Not long, 'cause love radiates
Through your life, burning bright Feels like fire
Feels like fire
This desire
Feels like fire
Feels like fire
Feels like fire
