

Angel on My Bike

The Wallflowers

Words and Music by Jakob Dylan She knows just what I like

The angel on my bike

She found me down on a two ton anchor

Tangled up in wire

She always gets it right

The angel on my bike

I could be killed if the train goes faster

Well angel watch my life

I can't handle a care

I want, but I can't be there

While angel's a prayer It's 45 miles on that highway

Angel double prayer

I have to sleep with my eyes on the white lines

Elvis need of repair

I only wanted to believe

That angel it's me that you need

And there's only, only one heart on that highway

Angel double prayer I can't handle a care

I want, but I can't be there

While angel's a prayer

I can't handle a care

I want, but I can't be there

While angel's a prayer

Now it's hard time on these wheels

These fairytales

Turn to rusted steel and it's

Gettin' hard now to believe

She's seein' me

Angel, please, tell me

Can't you see

Angel it's only me

Angel it's only me Well I can't take a care

Man, I want, but I can't be there

While angel's a prayer

I can't handle a care

Well, I want, but I can't be there

While angel's a prayer
