White Dress (feat. Deutsch Duke) [Extended Mix]

Set Mo

I could feel your touch
I could picture you now
These far away places
Together we found
These clear blue waters
With no one around
Just you and me baby
While we do our own sound(x2)
This feeling hold on to
I still remember you
In your white dress baby yeah
It's never been quite this simpleAnd dust of melt
That is on my head
I can still feel the breeze
I can still smell your hair
I miss that time
When the stars were in the reach
The sun on her face
And the sand at her feet(x2)
This feeling hold on to
I still remember you
In your white dress baby yeah
It's never been quite this simple
