

If I Had Any Pride Left At All

[Joe Diffie](#)

I wouldn't count the times we talked about tomorrow
I wouldn't sing the lines when someone played our song
On lonely nights like this when I need a friend
You'd be the last one I'd call if I had any pride left at all
I wouldn't keep a place just to set your picture
Oh, try to touch your face and feel you in my arms
An' I wouldn't be here now, parked outside your house
Not ashamed to crawl if I had any pride left at all
Only a fool would still be wearing this ring
Ringing your front doorbell
I wouldn't let my heart stay wrapped around your finger
An' I wouldn't fall apart as you open the door
Like all the other times when your eyes met mine
These teardrops wouldn't fall, oh if I had any pride left at all
Oh, if I had any pride left at all
