

# You Do the Same for Me

**Dave Barnes**

Tell me everything  
'Cause I can see it in your eyes  
There's a story there these tears  
Won't tell me why Oh, and don't be strong  
Isn't that what got you here?  
Wanderin' in this dark alone  
Among your fears Let me know what I can do  
To bear this weight here with you You do the same for me  
Oh, you do the same  
You're the blood when my heart won't beat  
Oh, you do the same So I hold the light in this night  
So your eyes can see  
You do the same for me This circumstance  
It is such a common thing  
We're all butterflies  
With broken wings Let me know what I can do  
To bear this weight here with you You do the same for me  
Oh, you do the same  
You're the blood when my heart won't beat  
Oh, you do the same So I hold the light in this night  
So your eyes can see  
You do the same for me Life will never leave us alone  
So I'll never leave you alone You do the same for me  
Oh, you do the same  
You're the blood when my heart won't beat  
Oh, you do the same And I hold the light in this night  
So your eyes can see  
You do the same for me  
You do the same, the same for me
