

Burn It Up

Jade Ewen

Burn it up now...now...now...now...now
Closer
Just a bit closer
And for one hour
Baby
Let's pretend we're
Stronger
We are not stronger
We have spent 5 years trying
Still we've got no where to go
There's shadows in the dark
That bruises on my heart
Time is leaving us
So damn deceiving
Baby if you
If you leave this all behind
If you search for and you find
What is missing here
Please let me know
But if it's true
Then i stop and i resign
Cos if love can't be divine
I don't want it
I don't need this heart
I'llBurn it up now now now
Burn it up now now now
Burn it up now now now
I don't need this heart
heart
Your eyes
Opened up my eyes
And I can see old lies
New doors
They're all closing
Can't you see
The markings on my skin
Where i have let you in
I can't heal this pain
So damn deceiving
Baby if you
If you leave this all behind
If you search for and you find
What is missing here
Please let me know
But if it's true
Then I stop and I resign
Cos if love can't be divine

I don't want it
I don't need this heart
I'llBurn it up now now now
Burn it up now now now
Burn it up now now now
I don't need this heart
HeartBurn it up now now now
Burn it up now now now
Burn it up now now now
I don't need this heart
HeartNooBaby if you
If you leave this all behind
If you search for and you find
What is missing here
Please let me knowBut if it's true
Then I stop and I resign
Cos if love can't be divine
I don't want it
I don't need this heart
I'llBurn it up now now now (if you leave this all behind)
Burn it up now now now (If you search for and you find)
Burn it up now now now (what is missing here)
Please let me knowBurn it up now now now (But if its true)
Burn it up now now now (Then i stop and i resign)
Burn it up now now now (Cos if love can't be divine)
I don't want it
I don't need this heart
HeartI'll
Burn it up
