

Vacation

Guttermouth

I never wanted to be in charge
I was always told if I worked real hard
I never really wanted to have a big car
I'd always be a sucker
And my life would pass me
Take a minute to stop and listen
Not everything I do has reason
I'm not always gonna get things right
The mistakes I've made
They're gonna get paid
(chorus) I need a vacation
A holiday in the sun
Try to stop but please don't dare me
I need a vacation
Two wrongs gonna make it right
From you
Doing wrong but the cops don't scare me
Do it my way all night long
Gonna write my own book to live now
People always want to tell me how to live my life
Never listen to a word you say now
(chorus)
Doing wrong but the cops don't scare me
My way all night long
Try to stop but please don't dare me
Two wrongs gonna make it right
Try to stop but please don't dare me
Two wrongs gonna make it right
Doing wrong but the cops don't scare me
Gonna write my own book to live now
Do it my way all night long
Never listen to a word you say now
People always want to tell me how to live my life
(chorus)
