

I'm Comin' Around

Casey Thrasher

She said, I ain't sure just what it is
But there's somethin bout the way
That all you say when I pick a fight
Is whatever you say
I hate that camouflage ball cap
And your momma drives me insane
We'll it's time to do what I gotta do
It's time to make a change

(Chorus)

So I'm growing my hair out
Gonna lift my truck
Drive out through the country
And get it stuck
Call up a long lost buddy to pull me out
Find me a new girlfriend
One that don't complain
When I mention my best friends name
One that ain't always trying to bring me down
I ain't saying I'm over it yet
But I'm comin around

Since then there's been some long nights
And there've been some rainy days
And I'll admit I've had to fight back tears
At the sound of your name
But it's been worth every minute
To have some peace of mind
Now my old boots are all shined up
And I'll be out on the town tonight

(Chorus)

And I'm growing my hair out
Gonna lift my truck
Drive out through the country
And get it stuck
Call up a long lost buddy to pull me out
Find me a new girlfriend
One that don't complain

When I mention my best friends name
One that ain't always trying to bring me down
I ain't saying I'm over it yet
But I'm comin around

I'm breaking out the bass boat
Gonna test my luck
Do what I can to fill the live well up
Decorate my mantle with a new large mouth
Find me a brand new girlfriend
One that don't complain
When I mention my best friends name
One that ain't always trying to bring me down
I ain't saying I'm over it yet
But I'm comin around
I'm comin around
